Capacitors	China, Chinese Taipei, Indonesia, Japan, Korea, Malaysia, Philippines, Singapore, Thailand,
Resistors	China, Chinese Taipei, Indonesia, Japan, Korea, Malaysia, Philippines, Singapore, Thailand,
Connectors	Japan, Malaysia, Philippines, Thailand, Vietnam
Inductors	China, Chinese Taipei, Japan, Korea, Malaysia, Philippines, Thailand, Vietnam

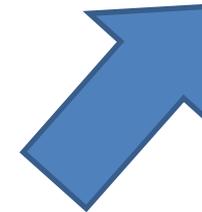

**Intermediate commodities**

- Liquid crystal modules
- Signal processing boards
- Camera modules

Mobile phones

Brazil, China, Chinese Taipei, India, Japan, Korea, Malaysia

Assembled in  
Brazil, China, Chinese Taipei, India, Japan, Korea, Malaysia

Speakers

Microphones

Batteries

Keyboard switches

Covers

Antennas

- ITA has advanced the global economy, higher standards of living and innovation. We are ready to boost the penetration of valuable ITA products, contributing to healthier, safer and more affluent lives.
- ITA product coverage needs to be expanded in line with technological advance and regularly updated.
- Global Supply Chain requires multilateral agreement and ITA expansion would benefit all countries.

We need WEF's strong leadership in rapid launching negotiations and reaching a conclusion.

Thank you for your kind attention.
